BATTLE BUDDIES

Vets Helping Vets

Mission

Primarily through confidential peer support, informed advocacy and expert referral we will help veterans overcome barriers to healthcare, access work and educational opportunities and re-integrate into civilian society.

Vision

Interacting with others who have had similar experiences, yet managed to find some stability and peace, tends to build trust, create hope and promote health. Our trained Battle Buddies understand how difficult it is to return home after war. We want to see that every veteran has a no cost opportunity to confidentially connect with another veteran who is well trained to listen, understand and encourage.
